From the Public:

Edith Greenwood, Andrew Stayman, Lisa Erdner, Rich Stalzer, and Bill Kish

The meeting started at 6pm.

The purpose of the joint meeting was to review and discuss a Draft of the Municipal Climate Action Plan for the Town of North East and the Village of Millerton.

Supervisor Kennan gave a brief historical backstory.

Mr. Ludvigsen read from his PowerPoint, which included Action Plan options, Annual Tracking and a 5-year update. Data from 2020 was used as the base year for the study. Members of the Board, Village Trustees and members of the audience had a printout of the Recommended Action Plan targets.

Emission reduction targets:

3% by 2023

10% by 2027

25% by 2032

The Plan illustrated sample actions the Town or Village could take, and Mr. Ludvigsen emphasized that grants are becoming increasingly available.

Bill Kish from the audience felt the focus of action should be on the Landfill sooner rather than later and Trustee Kerr agreed. There was wide consensus among audience members and Ms. Chow.

Meeting ended at 7pm. and Ms. Chow's homemade cookies were passed about.
